Summary

Technical product professional with 3+ years of experience owning B2B and B2C products from customer discovery to launch across automotive, healthcare, and e-commerce. Expert in product ownership and roadmap planning, turning customer and stakeholder needs into PRDs, user stories, engineering scope, and go-to-market launches, backed by a computer science background and hands-on UX and engineering skills. Proficient in applying AI-powered tools (Claude, Cursor, LLMs) to accelerate discovery, prototyping, and delivery. Proven impact includes 8+ projects delivered end to end, a 35% lift in feature adoption, and an 84% rise in user retention. Committed to aligning product, engineering, and business stakeholders around data-driven decisions that deliver measurable outcomes.

Work Experience

UX Engineer (Project Owner), In-Vehicle HMI | *Traxen Inc, Automotive*

Plymouth, MI | Jun 2024 – Present

- Owned 8+ projects end to end as project owner for iQCruise, a production Android in-vehicle app for commercial trucks, leading client integrations that enabled full revenue generation.
- Planned and maintained the iQCruise product roadmap with business and engineering teams, prioritizing features by client needs and engineering scope and aligning stakeholders on trade-offs and release dates.
- Drove a 35% increase in feature adoption by synthesizing user research, client feedback, stakeholder input, and usage analytics into product requirements, success metrics, and feature priorities, while reducing error rates in safety-critical driving.
- Gathered requirements directly from clients and stakeholders and wrote PRDs and user stories in Jira, translating them into engineering scopes and a prioritized backlog for Agile sprints.
- Partnered with business teams on go-to-market and customer launches, coordinating rollouts, defining post-launch analytics, and authoring onboarding documentation that improved installation success rates.

Product Designer | *General Motors, Automotive*

Ann Arbor, MI | Jan 2024 – Apr 2024

- Defined and designed an end-to-end in-vehicle HMI for GM's luxury customer segment across 4 connected surfaces, grounded in market research on millennial luxury buyers and competitive analysis of BMW, Mercedes-Benz, Porsche, and Tesla.
- Reduced driver cognitive load by restructuring the driver-display information hierarchy and enabling multi-modal input across steering-wheel controls, voice, and touch; presented the work to a panel of GM product designers.

Product Design Intern (Project Lead) | *Desai Accelerator, Startups*

Ann Arbor, MI | May 2023 – Aug 2023

- Accelerated market entry for 5 startups as project lead, scoping MVPs with founders, prioritizing features, and managing simultaneous launches across healthcare, fitness, and e-commerce.
- Drove a 60% increase in unique app opens and an 84% rise in user retention for BuyMySpot by leading customer discovery (interviews, surveys, card sorting) to define requirements and redesigning search and filtering.

Education

M.S. in Information (Human-Computer Interaction) | University of Michigan | GPA 3.97/4.0

Ann Arbor, MI | 2024

B.Tech in Computer Science & Engineering | SRM Institute of Science & Technology | GPA 3.56/4.0 (8.9/10)

Chennai, India | 2021

Campus Leadership: Design & Social Media Officer, SOCHI (University of Michigan); Creative Team Member, Google Developer Student Clubs

Skills

Product Management: Product Ownership, Product Roadmap, Product Strategy, Product Lifecycle, PRDs & User Stories, Customer Discovery, Market Research, Competitive Analysis, Backlog & Feature Prioritization, Go-to-Market & Launch, MVP Scoping, Success Metrics & KPIs

Delivery & Stakeholders: Stakeholder Management, Client Communication, Client Integration, Engineering Scoping, Timeline Planning, Cross-Functional Leadership, Agile / Scrum, Jira

Research & Analytics: User Interviews, Usability Testing, A/B Testing, Surveys, Card Sorting, Event Analytics, Funnel Tracking, Google Analytics, SQL, Data-Driven Decision-Making

AI: AI-Assisted Prototyping, AI-Assisted Coding, LLM Workflows, Prompt Engineering, Claude, Cursor, ChatGPT

Technical Foundation: Kotlin, Android Studio, Python, HTML/CSS, JavaScript, GitHub, Figma, Miro, Accessibility (WCAG 2.1)

Certifications: Visual Elements of User Interface Design (Coursera), Human-Centered Design: An Introduction (Coursera)

Awards: \$7,000 + \$4,000 winner, University of Michigan innovation competitions (CommunityConnect); Irma M. Wyman Scholar
